

Lagos LGA Education Resources: RAG Knowledge Base

Education Resource-Gap Intelligence Tool · 20 Lagos LGAs · 2016/17–2019/20 and 2024/25

About This Document

This document describes the education resources of public and private schools in the 20 Local Government Areas (LGAs) of Lagos State, Nigeria. It is the knowledge base for the Education Resource-Gap Intelligence Tool. The analysis is at LGA level, not individual school level.

The data comes from two official sources. The Lagos Bureau of Statistics report 'Spotlight on Lagos Statistics 2021' provides public school enrolment (by gender) and student-teacher ratios for Primary, JSS and SSS from 2016/17 to 2019/20. The DNEMIS Annual School Census 2024/25 (Federal Ministry of Education) provides learners, student-teacher, student-classroom and student-toilet ratios for public schools by level and for private schools as an LGA total.

The two sources recorded different information. Classroom and toilet ratios exist only for 2024/25. Enrolment by gender exists only for 2016/17 to 2019/20. Where a figure was not collected, this document states that it was not reported.

National standards used (UBE minimum standards, as published on the DNEMIS portal):

- Students per teacher: 35. A higher ratio means the LGA is lacking teachers.
- Students per classroom: 35. A higher ratio means the LGA is lacking classrooms.
- Students per toilet: 30. A higher ratio means the LGA is lacking toilets.
- Note: the National Policy on Education allows 40 students per teacher at secondary level.

Key Terms

- LGA: Local Government Area. Lagos State has 20 LGAs.
- Learner-teacher ratio (student-teacher ratio): number of students for each teacher.
- Learner-classroom ratio: number of students for each classroom.
- Learner-toilet ratio: number of students for each toilet.
- JSS: Junior Secondary School. SSS: Senior Secondary School. IQS: Islamiyya/Quranic schools. Tech/Voc: technical and vocational schools.
- UBE: Universal Basic Education, Nigeria's basic education programme, run by the Universal Basic Education Commission (UBEC).
- Teachers needed to meet standard: extra teachers required so that the ratio falls to 35 students per teacher.

Lagos State Summary, 2024/25 (Public Primary, JSS and SSS)

The figures in this section combine public Primary, JSS and SSS schools in each LGA into one figure per LGA. Teachers, classrooms and toilets were estimated for each level (learners divided by the ratio), added together for the LGA, and the ratio recalculated, so larger school levels count more.

Out of 20 LGAs, 8 are lacking teachers (above 35 students per teacher), 13 are lacking classrooms (above 35 students per classroom) and 17 are lacking toilets (above 30 students per toilet). Toilets are the most widespread gap, followed by classrooms, then teachers.

Most lacking LGAs overall (average of the three ratios divided by their standards): 1. Badagry (1.71 times the standards); 2. Ojo (1.67 times the standards); 3. Alimosho (1.57 times the standards); 4. Ibeju/Lekki (1.56 times the standards); 5. Ikorodu (1.52 times the standards).

Least lacking LGAs overall: 1. Mushin (0.70 times the standards); 2. Lagos Mainland (0.80 times the standards); 3. Shomolu (0.84 times the standards); 4. Kosofe (0.87 times the standards); 5. Surulere (0.94 times the standards).

Ranking of LGAs by students per teacher, from most lacking to least lacking: 1. Ajeromi/Ifelodun (57.7 students per teacher); 2. Badagry (50.4 students per teacher); 3. Ibeju/Lekki (44.9 students per teacher); 4. Amuwo Odofin (44.0 students per teacher); 5. Ojo (43.0 students per teacher); 6. Lagos Island (40.7 students per teacher); 7. Eti-Osa (39.9 students per teacher); 8. Apapa (37.3 students per teacher); 9. Alimosho (32.1 students per teacher); 10. Ikorodu (31.5 students per teacher); 11. Agege (30.4 students per teacher); 12. Shomolu (29.8 students per teacher); 13. Ifako/Ijaye (27.1 students per teacher); 14. Lagos Mainland (26.9 students per teacher); 15. Surulere (26.8 students per teacher); 16. Oshodi/Isolo (26.7 students per teacher); 17. Mushin (25.1 students per teacher); 18. Epe (23.5 students per teacher); 19. Ikeja (22.7 students per teacher); 20. Kosofe (21.1 students per teacher).

Ranking of LGAs by students per classroom, from most lacking to least lacking: 1. Alimosho (60.5 students per classroom); 2. Ikorodu (59.3 students per classroom); 3. Badagry (56.0 students per classroom); 4. Ojo (55.8 students per classroom); 5. Ibeju/Lekki (50.9 students per classroom); 6. Ifako/Ijaye (50.6 students per classroom); 7. Apapa (44.4 students per classroom); 8. Eti-Osa (44.4 students per classroom); 9. Ajeromi/Ifelodun (41.0 students per classroom); 10. Oshodi/Isolo (40.0 students per classroom); 11. Epe (39.2 students per classroom); 12. Ikeja (37.3 students per classroom); 13. Agege (36.5 students per classroom); 14. Shomolu (33.7 students per classroom); 15. Surulere (33.3 students per classroom); 16. Amuwo Odofin (32.8 students per classroom); 17. Kosofe (30.4 students per classroom); 18. Lagos Mainland (27.6 students per classroom); 19. Mushin (23.2 students per classroom); 20. Lagos Island (14.9 students per classroom).

Ranking of LGAs by students per toilet, from most lacking to least lacking: 1. Ojo (65.4 students per toilet); 2. Badagry (62.6 students per toilet); 3. Alimosho (61.9 students per toilet); 4. Ikorodu (59.2 students per toilet); 5. Ibeju/Lekki (58.3 students per toilet); 6. Ifako/Ijaye (49.3 students per toilet); 7. Ajeromi/Ifelodun (41.6 students per toilet); 8. Epe (40.6 students per toilet); 9. Lagos Island (39.9 students per toilet); 10. Eti-Osa (36.1 students per toilet); 11. Apapa (35.3 students per toilet); 12. Ikeja (34.7 students per toilet); 13. Oshodi/Isolo (34.5 students per toilet); 14. Agege (34.3 students per toilet); 15. Kosofe (33.9 students per toilet); 16. Amuwo Odofin (33.5 students per toilet); 17. Surulere (32.8 students per toilet); 18. Lagos Mainland (25.5 students per toilet); 19. Mushin (21.7 students per toilet); 20. Shomolu (21.0 students per toilet).

Ranking of LGAs by number of public school learners (Primary, JSS and SSS), from largest to smallest: 1. Ikorodu (107,588); 2. Alimosho (101,401); 3. Badagry (65,401); 4. Ojo (57,527); 5. Surulere (46,221); 6. Epe (44,981); 7. Ajeromi/Ifelodun (43,716); 8. Oshodi/Isolo (42,445); 9. Eti-Osa (34,381); 10. Ifako/Ijaye (34,026); 11. Agege (33,385); 12. Ibeju/Lekki (31,513); 13. Ikeja (31,020); 14. Kosofe (30,776); 15. Mushin (28,861); 16. Amuwo Odofin (28,850); 17. Lagos Mainland (26,253); 18. Lagos Island (24,559); 19. Shomolu (23,710); 20. Apapa (16,554).

Lagos State Summary by School Level and Over Time

In 2024/25, public primary schools across Lagos averaged 29.9 students per teacher, 23.2 students per classroom and 30.4 students per toilet (simple average of the 20 LGAs).

In 2024/25, public junior secondary schools (JSS) across Lagos averaged 49.0 students per teacher, 70.6 students per classroom and 54.1 students per toilet (simple average of the 20 LGAs).

In 2024/25, public senior secondary schools (SSS) across Lagos averaged 31.3 students per teacher, 65.4 students per classroom and 50.6 students per toilet (simple average of the 20 LGAs).

Average students per teacher across the 20 LGAs, 2016/17 to 2019/20: public primary schools: 2016/17 = 38.4, 2017/18 = 36.8, 2018/19 = 49.3, 2019/20 = 53.0; public junior secondary schools (JSS): 2016/17 = 37.5, 2017/18 = 40.0, 2018/19 = 43.4, 2019/20 = 49.5; public senior secondary schools (SSS): 2016/17 = 25.3, 2017/18 = 27.0, 2018/19 = 27.7, 2019/20 = 31.9. The teacher shortage worsened at every level over this period.

A small number of figures should be treated with caution. Lagos Island's public primary classroom ratio is reported as 7.9 students per classroom, far lower than any other LGA, which pulls its combined classroom figure down to about 15. This may be a recording issue in the source.

Agege LGA

Summary for Agege LGA, 2024/25 (public Primary, JSS and SSS combined): 33,385 learners; 30.4 students per teacher (rank 11 of 20 for teacher shortage); 36.5 students per classroom (rank 13 of 20 for classroom shortage); 34.3 students per toilet (rank 14 of 20 for toilet shortage). Overall, Agege ranks 12 of 20 LGAs for resource needs, where 1 is the most lacking. It is not lacking teachers, lacking classrooms and lacking toilets compared with national standards.

In 2024/25, public primary schools in Agege LGA, Lagos State, had 9,529 learners. The student-teacher ratio was 28.0 students per teacher, which is within the national standard of 35 (not lacking teachers); the student-classroom ratio was 16.3 students per classroom, which is within the national standard of 35 (not lacking classrooms); the student-toilet ratio was 21.5 students per toilet, which is within the national standard of 30 (not lacking toilets). 48.4% of learners were female; 82.4% of teachers were female; 12 learners had special needs. Source: DNEMIS Annual School Census 2024/25.

In 2024/25, public junior secondary schools (JSS) in Agege LGA, Lagos State, had 13,718 learners. The student-teacher ratio was 31.8 students per teacher, which is within the national standard of 35 (not lacking teachers); the student-classroom ratio was 79.3 students per classroom, which is 44.3 above the national standard of 35 (lacking classrooms); the student-toilet ratio was 53.8 students per toilet, which is 23.8 above the national standard of 30 (lacking toilets). 57.8% of learners were female; 73.6% of teachers were female; 56 learners had special needs. Source: DNEMIS Annual School Census 2024/25.

In 2024/25, public senior secondary schools (SSS) in Agege LGA, Lagos State, had 10,138 learners. The student-teacher ratio was 31.0 students per teacher, which is within the national standard of 35 (not lacking teachers); the student-classroom ratio was 65.0 students per classroom, which is 30.0 above the national standard of 35 (lacking classrooms); the student-toilet ratio was 36.9 students per toilet, which is 6.9 above the national standard of 30 (lacking toilets). 58.6% of learners were female; 69.4% of teachers were female; 31 learners had special needs. Source: DNEMIS Annual School Census 2024/25.

In 2024/25, public Islamiyya/Quranic schools (IQS) in Agege LGA, Lagos State, had 485 learners. The student-teacher ratio was not reported; the student-classroom ratio was not reported; the student-toilet ratio was 6.9 students per toilet, which is within the national standard of 30 (not lacking toilets). 60.6% of learners were female; 2 learners had special needs. Source: DNEMIS Annual School Census 2024/25.

In 2024/25, public technical and vocational schools in Agege LGA, Lagos State, had 0 learners. The student-teacher ratio was not reported; the student-classroom ratio was not reported; the student-toilet ratio was not reported. 0 learners had special needs. Source: DNEMIS Annual School Census 2024/25.

In 2024/25, private schools (all levels combined) in Agege LGA, Lagos State, had 27,056 learners. The student-teacher ratio was 9.3 students per teacher, which is within the national standard of 35 (not lacking teachers); the student-classroom ratio was not reported; the student-toilet ratio was 13.3 students per toilet, which is within the national standard of 30 (not lacking toilets). 52.6% of learners were female; 66.5% of teachers were female; 1 learner had special needs. Source: DNEMIS Annual School Census 2024/25.

Trend for public primary schools in Agege LGA, 2016/17 to 2019/20. 2016/2017: 18,863 learners (9,477 male, 9,386 female), 28 students per teacher; 2017/2018: 17,449 learners (8,569 male, 8,880 female), 28 students per teacher, enrolment change -7.5% from the previous year; 2018/2019: 16,961 learners (8,258 male, 8,703 female), 38 students per teacher, enrolment change -2.8% from the previous year; 2019/2020: 16,078 learners (8,000 male, 8,078 female), 43 students per teacher, enrolment change -5.2% from the previous year. Over these four years the student-teacher ratio worsened, moving from 28 to 43 students per teacher (standard: 35). In 2019/20 it was above the standard. Source: Lagos Bureau of Statistics, Spotlight on Lagos Statistics 2021. Classroom and toilet data were not collected in this report.

Trend for public junior secondary schools (JSS) in Agege LGA, 2016/17 to 2019/20. 2016/2017: 14,993 learners (6,988 male, 8,005 female), 32 students per teacher; 2017/2018: 15,196 learners (7,087 male, 8,109 female), 34 students per teacher, enrolment change +1.4% from the previous year; 2018/2019: 14,568 learners (6,735 male, 7,833 female), 39 students per teacher, enrolment change -4.1% from the previous year; 2019/2020: 14,830 learners (6,827 male, 8,003 female), 38 students per teacher, enrolment change +1.8% from the previous year. Over these four years the student-teacher ratio worsened, moving from 32 to 38 students per teacher (standard: 35). In 2019/20 it was above the standard. Source: Lagos Bureau of Statistics, Spotlight on Lagos Statistics 2021. Classroom and toilet data were not collected in this report.

Trend for public senior secondary schools (SSS) in Agege LGA, 2016/17 to 2019/20. 2016/2017: 8,643 learners (3,846 male, 4,797 female), 27 students per teacher; 2017/2018: 9,728 learners (4,376 male, 5,352 female), 32 students per teacher, enrolment change +12.6% from the previous year; 2018/2019: 9,060 learners (4,044 male, 5,016 female), 32 students per teacher, enrolment change -6.9% from the previous year; 2019/2020: 8,912 learners (3,987 male, 4,925 female), 32 students per teacher, enrolment change -1.6% from the previous year. Over these four years the student-teacher ratio worsened, moving from 27 to 32 students per teacher (standard: 35). In 2019/20 it was within the standard. In 2024/25, private schools (all levels combined) in Ajeromi/Ifelodun LGA, Lagos State, had 25,810 learners. The student-teacher ratio was 10.9 students per teacher, which is within the national standard of 35 (not lacking teachers); the student-classroom ratio was not reported; the student-toilet ratio was 19.3 students per toilet, which is within the national standard of 30 (not lacking toilets). 51.1% of learners were female; 69.8% of teachers were female; 3 learners had special needs. Source: DNEMIS Annual School Census 2024/25.

Trend for public primary schools in Ajeromi/Ifelodun LGA, 2016/17 to 2019/20. 2016/2017: 23,660 learners (11,776 male, 11,884 female), 56 students per teacher; 2017/2018: 24,945 learners (12,297 male, 12,648 female), 56 students per teacher, enrolment change +5.4% from the previous year; 2018/2019: 24,866 learners (12,336 male, 12,530 female), 70 students per teacher, enrolment change -0.3% from the previous year; 2019/2020: 23,682 learners (11,535 male, 12,147 female), 78 students per teacher, enrolment change -4.8% from the previous year. Over these four years the student-teacher ratio worsened, moving

from 56 to 78 students per teacher (standard: 35). In 2019/20 it was above the standard. Source: Lagos Bureau of Statistics, Spotlight on Lagos Statistics 2021. Classroom and toilet data were not collected in this report.

Trend for public junior secondary schools (JSS) in Ajeromi/Ifelodun LGA, 2016/17 to 2019/20. 2016/2017: 17,689 learners (8,838 male, 8,851 female), 50 students per teacher; 2017/2018: 18,505 learners (9,201 male, 9,304 female), 61 students per teacher, enrolment change +4.6% from the previous year; 2018/2019: 17,926 learners (8,528 male, 9,398 female), 65 students per teacher, enrolment change -3.1% from the previous year; 2019/2020: 18,687 learners (9,328 male, 9,359 female), 84 students per teacher, enrolment change +4.2% from the previous year. Over these four years the student-teacher ratio worsened, moving from 50 to 84 students per teacher (standard: 35). In 2019/20 it was above the standard. Source: Lagos Bureau of Statistics, Spotlight on Lagos Statistics 2021. Classroom and toilet data were not collected in this report.

Trend for public senior secondary schools (SSS) in Ajeromi/Ifelodun LGA, 2016/17 to 2019/20. 2016/2017: 15,443 learners (7,655 male, 7,788 female), 42 students per teacher; 2017/2018: 14,525 learners (7,117 male, 7,408 female), 41 students per teacher, enrolment change -5.9% from the previous year; 2018/2019: 14,149 learners (6,796 male, 7,353 female), 38 students per teacher, enrolment change -2.6% from the previous year; 2019/2020: 14,234 learners (6,997 male, 7,237 female), 41 students per teacher, enrolment change +0.6% from the previous year. Over these four years the student-teacher ratio improved, moving from 42 to 41 students per teacher (standard: 35). In 2019/20 it was above the standard. Source: Lagos Bureau of Statistics, Spotlight on Lagos Statistics 2021. Classroom and toilet data were not collected in this report.

Alimosho LGA

Summary for Alimosho LGA, 2024/25 (public Primary, JSS and SSS combined): 101,401 learners; 32.1 students per teacher (rank 9 of 20 for teacher shortage); 60.5 students per classroom (rank 1 of 20 for classroom shortage); 61.9 students per toilet (rank 3 of 20 for toilet shortage). Overall, Alimosho ranks 3 of 20 LGAs for resource needs, where 1 is the most lacking. It is not lacking teachers, lacking classrooms and lacking toilets compared with national standards.

In 2024/25, public primary schools in Alimosho LGA, Lagos State, had 30,526 learners. The student-teacher ratio was 32.1 students per teacher, which is within the national standard of 35 (not lacking teachers); the student-classroom ratio was 35.3 students per classroom, which is 0.3 above the national standard of 35 (lacking classrooms); the student-toilet ratio was 46.5 students per toilet, which is 16.5 above the national standard of 30 (lacking toilets). 48.2% of learners were female; 88.4% of teachers were female; 284 learners had special needs. Source: DNEMIS Annual School Census 2024/25.

In 2024/25, public junior secondary schools (JSS) in Alimosho LGA, Lagos State, had 37,465 learners. The student-teacher ratio was 32.6 students per teacher, which is within the national standard of 35 (not lacking teachers); the student-classroom ratio was 85.3 students per classroom, which is 50.3 above the national standard of 35 (lacking classrooms); the student-toilet ratio was 82.2 students per toilet, which is 52.2 above the national standard of 30 (lacking toilets). 49.6% of learners were female; 79.5% of teachers were female; 17 learners had special needs. Source: DNEMIS Annual School Census 2024/25.

In 2024/25, public senior secondary schools (SSS) in Alimosho LGA, Lagos State, had 33,410 learners. The student-teacher ratio was 31.6 students per teacher, which is within the national standard of 35 (not lacking teachers); the student-classroom ratio was 90.0 students per classroom, which is 55.0 above the national standard of 35 (lacking classrooms); the student-toilet ratio was 63.6 students per toilet, which is 33.6 above the national standard of

30 (lacking toilets). 51.1% of learners were female; 69.5% of teachers were female; 8 learners had special needs. Source: DNEMIS Annual School Census 2024/25.

In 2024/25, public Islamiyya/Quranic schools (IQS) in Alimosho LGA, Lagos State, had 206 learners. The student-teacher ratio was not reported; the student-classroom ratio was not reported; the student-toilet ratio was 11.4 students per toilet, which is within the national standard of 30 (not lacking toilets). 70.9% of learners were female; 0 learners had special needs. Source: DNEMIS Annual School Census 2024/25.

In 2024/25, public technical and vocational schools in Alimosho LGA, Lagos State, had 2,036 learners. The student-teacher ratio was 22.9 students per teacher, which is within the national standard of 35 (not lacking teachers); the student-classroom ratio was 88.5 students per classroom, which is 53.5 above the national standard of 35 (lacking classrooms); the student-toilet ratio was 50.9 students per toilet, which is 20.9 above the national standard of 30 (lacking toilets). 16.2% of learners were female; 41.6% of teachers were female; 0 learners had special needs. Source: DNEMIS Annual School Census 2024/25.

In 2024/25, private schools (all levels combined) in Alimosho LGA, Lagos State, had 228,650 learners. The student-teacher ratio was 13.2 students per teacher, which is within the national standard of 35 (not lacking teachers); the student-classroom ratio was not reported; the student-toilet ratio was 22.0 students per toilet, which is within the national standard of 30 (not lacking toilets). 50.7% of learners were female; 71.9% of teachers were female; 106 learners had special needs. Limitations of the Data

- Exam results (WASSCE, NECO) are published only for Lagos State as a whole, not for each LGA, so learning outcomes cannot be compared between LGAs.
- The 2016-2020 figures and the 2024/25 figures come from different sources and may not be directly comparable.
- Classroom and toilet ratios are available only for 2024/25.
- Some ratios for IQS, technical/vocational and private schools were not reported in the 2024/25 census.
- All figures are at LGA level. The data does not identify individual schools.
